

Space Connect Case Study

Maximizing Workspace Efficiency

CHALLENGES

Aztec Group, facing rapid growth and a crowded workplace, needed a desk management solution to optimize their workspace. They sought a system that could provide immediate space utilisation benefits and valuable data for future decision-making. The COVID-19 pandemic accelerated their need for a solution that would support a safe return to the office and accommodate the evolving hybrid work model.

SOLUTION

After evaluating multiple options, Aztec Group chose Space Connect for its flexibility and continuous innovation. Unlike other solutions that would require process changes, Space Connect offered a polished system that could adapt and grow with Aztec Group. The provider's responsiveness to customer requests and future development plans further solidified their decision.

Key Benefits

- 1 Hybrid Working**
Working in the office or from home? Space Connect allows seamless workplace management.
- 2 Workplace Insights**
How is my space being used? Generate useable workplace reports to fully utilise your space.
- 3 Scalable**
Need to quickly expand your workplace? Space Connect allows quick do-it-yourself setup.

Hybrid Working

Easy to use

Workplace Utilisation

RESULTS

The implementation of Space Connect had an immediate impact on workspace management at Aztec Group. During the pandemic, the system allowed employees to easily and securely book desks, facilitating a smooth transition back to the office. Space Connect seamlessly integrated with Aztec Group's offices, optimizing desk utilization and providing valuable data on employee usage patterns. The user-friendly interface simplified the reservation process and ensured efficient space allocation.

Space Connect also supports Aztec Group's hybrid work model by enabling quick and easy desk booking for employees who split their time between remote work and the office. This feature ensures that employees who occasionally work from home still feel connected and included.
