

Space Connect meeting room hardware integrations

Room panels, digital signage and video conferencing
– all made easy and affordable

Why Space Connect?

- Exceptional affordability and value
- A completely flexible, no-risk, no min-term agreement
- Super-fast deployment: same-day setup, and multiple sites within less than a week
- Easy self-configuration: Quickly add and configure desks, rooms, floors and sites
- Uploadable/configurable interactive floor maps
- Detailed real-time analytics
- Enterprise-level, modular features and functionality, as standard

Room panels and digital signage integrations

Space Connect supports IDea, Crestron, Yealink* and Native Android or iOS for room panels and digital signage.

With Space Connect you have flexibility on your choice of hardware and cost, plug-and-play integration, and a seamless link to your central calendar.

Smooth, seamless meeting room management

Space Connect delivers a feature-rich meeting room solution that syncs automatically with your calendar environment (O365 or Google), in real-time.

So, your organisation's existing calendar is always the single source of truth – no booking-clashes, no confusion. Just smooth, convenient, seamless booking.

Benefits of Space Connect room panel and signage integrations

- No additional charge for Room Panel app
- Fully automate the meeting room management process
- Spot available meeting rooms from a distance
- See real-time occupancy and availability info, on the fly
- Start / Check into meetings early
- End / Check out of meetings early
- Extend current meetings
- Use one-tap booking for on-the-fly / ad hoc meetings

Key, out-of-the-box integration features
